## MINIMUM\_SIZE

Minimum size in width for a horizontal logo = **120px**,  
for smaller widths – use a vertical logo.

>150px

>150px

# EXCLUSION\_ZONE

The prohibition zone is equal to 1/3 of the entire height icon.

For proportional logo placement – it is necessary to add an indentation at the bottom of the container (marked in green), which is equal to the space at the top (marked in red).

Marked as “X” – margin size.

# PARTNERSHIPS

**Option A** – logos of the same width “X”.

**Option B** – for a good balance copy the size of the container and put your partner's logo in it.

● – relative value for measuring the distance between logos.

# POSTING

The logo is the face of the brand and must be placed correctly.  
We would really like our product to be in the same conditions as our competitors and look presentable and complete its function 100%.

## MISUSE

it is important that the appearance on the logo remains consistent. The logo should misinterpreted, or added to. No attempt should be made to alter logo in any way. Its orientation, colour and composition should remain as indicated.

Do not distort or warp.

Do not use the wordmark without the icon.

Do not create your own versions of the logo.

Do not use any special background.

# STANDARD

We would like the main logo to always be the priority when placing.  
We suggest using an additional logo if the size of the image container is smaller than 150 pixels.
